**1. Call to Order**

Chair Kaufman called the meeting to order at 6:00 pm.

**2. Discussion Items not on the Agenda (5 min.)**

Chair Kaufman inquired if any persons wished to speak on non-agenda items.

Nesbitt informed PRAC that they play equipment at Park Cleone was no longer safe and needed to be removed. PRAC agreed that if the equipment is unsafe it should be removed.

**3. Finalize Design: Salish Ponds Improvement Project.**

Purpose of the meeting is to have PRAC review the final plan for improvements to Salish Ponds and present to the City Council.

Nesbitt went over revisions which include; reducing the fishing and viewing platforms to 18 spots, the floating dock in the west pond will be relocated to the east pond, additional benches will be installed on the east pond and the benches that are typically in the water most of the year will be relocated. The plan also includes the installation of root wads in areas in water where we do not want people to fish to help prevent trampling of vegetation. The plan also includes re-grading and re-graveling all trails within the park, Areas disturbed from construction will be re-vegetated. The pond will not be stocked until after the vegetation has become established. While construction is taking place and while

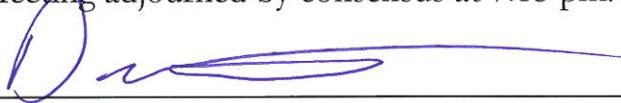

vegetation is establishing staff will work with ODF&W to develop a fish stocking plan and a park patrol plan.

Kaufman would prefer more fishing and viewing platforms, but supports moving the project forward.

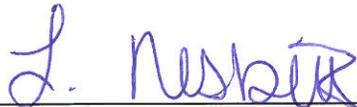

PRAC discussed the project and made and approved a motion that PRAC would like to see the construction occur and voted to move the modified plan as presented at the July 12, 2012 PRAC meeting forward to the City Council. Staff will also write a letter for the Chairs signature requesting the City Council authorize construction improvements to Salish Ponds Park.
