**FROM THE DESK OF MAYOR MIKE WEATHERBY.....**As the Mayor of Fairview, I am constantly exploring opportunities to reduce taxpayer costs while maintaining the current level of vital services that our city provides. With this thought in mind, I believe that one possible way to achieve this goal is to share various city services between the cities of Fairview, Troutdale, Wood Village and Gresham. While each of these cities has their own individual identities and history, we can all benefit by pooling resources to provide the best services to all citizens within the east county region. Fairview currently shares various staff positions with other jurisdictions (permitting, code compliance, and emergency management) with great success. As your Mayor, I continue to foster an atmosphere of mutual cooperation with our neighboring Mayors and Council Members by encouraging meetings to discuss this subject.

Presently, Portland State University (PSU) is compiling a report regarding Fire Services for the communities of Fairview, Troutdale and Wood Village. The information gathered in this report will greatly assist us during the upcoming Fire Services contract negotiations with the City of Gresham. Within the various City Councils, there are those who believe that the cities of Fairview, Troutdale and Wood Village should join forces and create their own Fire District. Once this report is released, I strongly urge you to read it and communicate your opinions on this subject to me. I want to know if you, the citizens of Fairview, feel that we should put forth the time and investment necessary to create such a district. Enjoy the rest of your summer! Sincerely, Mayor Mike
